PUBLIC NOTICES

IMPORT TRADE CONTROL

New Delhi, the 8th August 1953

SUBJECT:—*Licensing of powdered milk in bulk packing (S. No. 80 Part IV) to biscuit and confectionery manufacturers for the period July-December 1953.*

No. 118-ITC(P.N.)/53.—Attention is invited to the entries against S. No. 80(a) of Part IV of the I.T.C. Schedule in Appendix ‘A’ to the Red Book for July-December 1953, according to which actual user applications for powdered milk and milk food imported in bulk packing will be considered only from firms having approved packing facilities. Representations have been received from some biscuit and chocolate manufacturers that under the existing policy they are unable to import for their own use milk powder, which is an essential raw material for the manufacture of quality biscuits and chocolates. The matter has been examined and it has been decided that actual user applications from biscuit and confectionery manufacturers for the import of milk powder falling under S. No. 80 of Part IV should also be considered.

2. Applications should, as indicated in the relevant entry in the Red Book, be made to Chief Controller of Imports, New Delhi supported by the recommendation of the Development Wing of the Ministry of Commerce & Industry where the applicants are borne on their list. Applications from other manufacturers of biscuit and confectionery should be accompanied by a certificate in the prescribed form and manner from the Director of Industries of the State concerned.

SUBJECT:—*Import of Vacuum Flasks upto 1 pint capacity*

No. 114-ITC(P.N.)/53.—Reference is invited to the ‘Remarks’ column against Serial No. 248(a)/IV, Vacuum Flasks in Appendix ‘A’ to the Red Book for July-December 1953 wherein it has been indicated that not more than 10 per cent. of the face value of the licences can be utilised for the import of flasks upto 1 pint capacity. A doubt has been expressed whether the import of flasks of one pint capacity also is restricted to 10 per cent. of the face value of the licences issued under Serial No. 248(a)-IV.

It is clarified for general information that the face value restriction applies to flasks upto and including one pint capacity.

K. B. LALL, Joint Secy.

RESOLUTION

TARIFFS

New Delhi, the 15th August 1953

No. 5(2)/T.B./53.—The Tariff Commission has submitted its Report on the continuance of protection to the Dry Battery Industry on the basis of an enquiry undertaken by it under Section 11(e) read with Sections 13 and 15 of the Tariff Commission Act, 1951. Its recommendations are as follows:—

- (1) The measure of protection needed by the industry is less than that afforded by the normal revenue duty and since the domestic industry is not exposed to any threat of foreign competition under the present import policy, the protection granted to it need not be continued beyond the 31st December, 1953.
- (2) Solar Batteries should be given a reasonable quota for imports of flashlights and bulbs, in order to place them on an equal footing with their competitors.
- (3) All the three units which are at present in regular production should be given adequate opportunities to supply Government requirements.
- (4) Government should keep a careful watch over the developments in this industry and take suitable steps, if necessary, to maintain conditions of healthy competition.
- (5) The plan prepared by Solar Batteries for manufacture of manganese dioxide from indigenous ore should be examined in consultation with the Council of Scientific and Industrial Research and their request for necessary financial assistance given due consideration.
- (6) The industry should make fuller use of the facilities offered by the Council of Scientific and Industrial Research with a view to increasing the utilisation of indigenous materials.
- (7) The manufacturers should make fresh efforts to form an association.

2. Government accept the view of the Commission that in the present circumstances the industry does not need any protection. If the underlying assumptions of the Commission's recommendations change, it would be open to the industry to apply afresh for protection.

3. Recommendations (2) to (4) have been accepted by Government and steps will be taken to implement them as far as possible.

4. As regards recommendation (5), Government propose to examine the scheme of M/S. Solar Batteries Limited as recommended by the Commission.

5. The attention of the Industry is invited to recommendations Nos. (6) and (7).
